12:15 PM (immediately following Finance Cmt. Meeting)

City Hall Community Room

----- Agenda Topics -----

Call to Order

Mayor

1. 3rd Ave. N. Project – Phase A

PW Director

2. Eastside Sanitary Sewer – Phase A

PW Director

Adjourn

CITY COUNCIL COMMITTEE OF THE WHOLE

February 27, 2017 – 12:15 p.m.
Wahpeton City Hall

(This meeting was voice recorded.)

Members Present: Mayor Hansey, Schmidt (via Skype), Dale, DeVries, Bajumpaa, Bertsch, Lambrecht, Wateland, and Miller.

Staff Present: Lies, Huwe, Miranowski, Broadland, Rogahn, and Amos.

Others Present: Jared Heller of AE2S, Damon DeVillers of Interstate Engineering, and Frank Stanko of the Daily News

Call to Order – Mayor Hansey called the meeting to order at 12:19 p.m.

3rd Ave. N. Project – Phase A – Miranowski explained the assessment numbers will be reviewed for the parcels for both of the projects, 3rd Ave. N. and Eastside Sanitary Sewer, in each of the districts. The methodology used will be reviewed of how the assessments were spread and determination of the level of benefit for each of the properties. There is a buy down on each of the projects from Sales Tax for Infrastructure to try to make the projects sustainable from an affordability standpoint with the residents along 3rd Avenue as well as 1st Street. He noted any decisions made today may be setting a precedence as far as reconstructs in the city as there has never really been cost-sharing with projects. He noted about \$500,000 per year is generated in Sales Tax for Infrastructure to buy down these projects, and in the CIP the projects for the next 5 years are estimated at \$9.7 million so need to consider the sustainability of this funding source. Rogahn then gave a presentation reviewing the 3rd Avenue North Phase A Project, from the River through 4th Street. Existing Conditions Review: Sanitary Sewer – 24” Brick (installed 1890’s, area experiences high inflow and infiltration); Watermain – 10” Cast Iron (installed in 1890’s/main breaks in recent past, lead service lines), Storm Sewer – Currently flows to 2nd Avenue North; and Street – Low rating on street assessment review, no aggregate base. Proposed Improvements: Sanitary Sewer – 10” PVC with new 4” service lines installed to property line; Watermain – 8” PVC with stretch from 10” to 2nd Street, new 1” copper service lines installed to property line; Storm Sewer – New RCP storm main to collect run off from 3rd Avenue North, taking pressure off 2nd Avenue North storm; and Street – 34’ wide street with fabric, aggregate base, draitile and bituminous pavement/5’ sidewalk on south side of road. Estimated Costs: Construction & Engineering – \$2,925,315. Costs by Item: Street - \$1,398,615; Storm Sewer: \$418,616; Watermain - \$459,695; Sanitary Sewer - \$359,111; and Sewer & Water Services - \$289,278. Proposed Buy Downs Sales Tax for Infrastructure – 50% buy down on everything. Proposed Spread of Assessments: Street – Front Foot (Local Properties)/Square Foot (District Properties); Storm Sewer – Square Foot; Watermain – Front Foot (Local Properties that have service)/Square Foot (District Properties); Sanitary Sewer – Front Foot (Local Properties that have service)/Square Foot (District Properties); Sewer & Water Services – Spread on a per each method; and Warrant Interest – Worked into each of the 5 items. The spreadsheet for the assessment district was then reviewed. The estimated total cost is about \$2.9 million with a 50% buy down from Sales Tax for Infrastructure on everything but the warrant interest. Local share is \$687,513, and District is at \$825,144. The Local and District proposed assessment splits/costs for Street, Sanitary Sewer, Watermain, Storm Sewer, and Sewer & Water were then explained/reviewed, along with a map of the assessment district. Discussion held.

Eastside Sanitary Sewer – Phase A – Rogahn then presented Eastside Sanitary Sewer Improvements Phase A 1st Street North from Dakota Avenue to 5th Avenue North. He reviewed Existing Conditions: Sanitary Sewer – 12” Clay pipe, bottle neck (experienced numerous sewer backups over the years); Watermain – 10” Cast iron installed in the 1920’s; Storm Sewer – Series of catch basins and 12” main from 4th to 5th Avenue and 12” main from 2nd to 3rd Avenue; and Street – had low rating in street assessment. Proposed Improvements: Complete reconstruction of 1st Street North from Dakota Avenue to 5th Avenue; 18” PVC gravity sewer; 8” and 10” PVC watermain; RCP storm sewer with new storm structures; Copper water services and PVC sewer services; and

Street reconstruct to include: 46' wide street from Dakota Avenue to 2nd Avenue, 34' wide street from 2nd Avenue to 5th Avenue, 10" aggregate base with geotextile fabric and draintile, 5.5" bitumous pavement. Estimated Costs: Construction & Engineering: \$2,313,245. Cost breakout: Streets - \$1,156,347.50; Storm Sewer - \$239,624; Water - \$303,928.63; Sanitary Sewer - \$368,942.06; Sewer & Water Services - \$144,402.50; and Warrant Interest - \$100,000. Proposed Spread of Assessments: Street – Front Foot (for local properties – for district charge are proposing to do in a rate increase in the sanitary sewer); Storm Sewer – Square Foot; Watermain – Front Foot (For properties with service off 1st Street North, if no water service then no front foot assessment); Sanitary Sewer – Front Foot (For properties with service off 1st Street North, if no sanitary service then no front foot assessment); Sewer & Water Services – Spread on a per each method; and Warrant Interest – Worked into each of the 5 items. The spreadsheet for the assessment district was then reviewed. Rogahn noted that because so much of Street is included in the rate no buy down is being proposed. A 50% buy down is being proposed for Storm, Water and Sewer & Water Service. No buy down is being proposed for Sanitary Sewer. The total cost is approximately \$2.3 million with a buy down of \$343,978, and \$1.5 million proposing to pay with rate increase in sanitary sewer charge and \$420,753 spread to local properties. The proposed assessment splits were then reviewed, along with maps of the storm sewer parcels. Discussion held regarding the amount of estimated specials on some of the parcels. Bajumpaa wondered if a sum per property for both projects could be provided. Dale asked what the total was for City-owned properties and how it gets paid. Huwe answered for 3rd Avenue the total is \$118,817 or \$8,742.79 annually and is paid from City share of specials. She said the City has some previous City share of specials payments coming off so would need to look and see what the net effect is. Dale ask about water service lines being replaced up to the curbstop and if they are lead going into the house what happens then. It was answered if the homeowner wants to replace at that time it is their option. Further discussion held.

It was noted this was informational at this time. Miranowski said the question we have to talk about is if these numbers are reasonable. The biggest question moving forward is we are using a 50% buy down on the entire project from Sales Tax for Infrastructure which generates \$500,000 per year, and with the amount of reconstructs planned over the next 5 years we will not be able to sustain it. He wondered what we do at that point. We will either have to put more money into Sales Tax for Infrastructure or start stretching projects out until enough money has been saved up. He felt some money needs to be kept in Sales Tax for Infrastructure for the unexpected. There is currently approximately \$2.6 million in the Sales Tax for Infrastructure fund. When asked, it was noted the total buy down for both projects is about \$1.743 million. It was also asked how much would like to see left in that fund, and it was answered at least \$500,000. Further discussion held. Dale wondered when talked about setting precedence if were referring to the 50% buy down here on in for projects, to which it was answered it was. Discussion held. Bajumpaa felt every project is different and unique so didn't feel should set a policy like 50%. Dale agreed. Talk about Sales Tax for Infrastructure percentage of sales tax collected, which is was noted can't be less than 25%. Lambrecht asked when will be doing the area from 4th to 11th Street, which is expected in 2019. Discussion regarding those property owners being assessed specials now then again in two years. Dale commented it goes back to how complex this whole thing is and why it's been such a struggle to come up with a fair way to assess it. Bajumpaa stated it needs to be communicated throughout the hearing process, etc., that it's a series of steps. Miranowski agreed that in the hearings will have to be very clear about that. Further discussion held. A potential construction schedule was reviewed if were to proceed. Miranowski stated we will need to make a decision within the next month if we want this 3rd Avenue project to move forward this year. After holding all the assessment hearings it would be at least May for bids, June before start the project, and at minimum have first lift done before freeze up. Hansey expressed thanks to personnel for the work put into these projects. Patch projects were then discussed. Will try to meet again in a week or so to allow time for everyone to review the numbers. [DeVries exit at 1:22pm] The CIP meeting was scheduled for noon on March 6th. Dale would like to see what other commitments have to come out of Sales Tax for Infrastructure before delve into this too far. Miranowski agreed.

Adjourn – Motion by Bajumpaa, seconded by Lambrecht, and carried, to adjourn at 1:26 p.m.

3rd Avenue North Phase A Cost Splits

Term (Yrs)	20	
Bond Interest Rate	2.5%	
Inflation Rate Assumption	0.0%	
Administration, Legal Costs	3.0%	
Interest on Specials	4.0%	Bond Rate plus 1 1/2%
Assessment Buy-Down (Street)	50.0%	
Assessment Buy-Down (Storm)	50.0%
